Subject: 6/24/19 Slauson Tanker oversight

Hi Ben,

Today the PRP's contractor completed sampling all 14 Soil Vapor points at 7 locations (SV-1 through SV-7).

A duplicate was collected at SV-1-15' and SV-3-5'.

No further assessment field work planned other than removal of the rolloff bin and soil drums.

Thank you,
Anne Lawrence, P.G.
